No records found for the search criteria.

NOTES:

- On January 8, 2001, dynamic access to the accident data repository was implemented. Static files are no longer available.
- On October 2, 2001, minor cases which do not fall under the definition of "accident" or "incident" were removed from the database; these entries were previously identified with "SA" in the accident number.
- On September 18, 2002, data from 1962-1982 were added to the aviation accident information. The format and type of data contained in the earlier briefs may differ from later reports.

This search is subject to the filings reflected on the index of collateral provided by the Federal Aviation Administration NTSB aviation accident database that contains information from 1962 and later about civil aviation accidents and selected incidents within the United States, its territories and possessions, and in international waters. AEROttitle assumes no responsibility as to the accuracy of said source, and does not guarantee, insure, or warrant that said FAA index is free of error.
